PROJECTS

1. Resume Builder

From: May-20 To July-20

Piranhas rarely feed on large animals; they eat smaller fish and aquatic plants. When confronted with humans, piranhas' first instinct is to flee, not attack.

2. Fan Controlled using Bluetooth

From: Dec-19 To Mar-20

Although most people consider piranhas to be quite dangerous, they are, for the most part, entirely harmless. Piranhas rarely feed on large animals; they eat smaller fish and aquatic plants.

INTERNSHIP

1. Internship at Google

From: Mar-20 To May-20

Developing writers can often benefit from examining an essay, a paragraph, or even a sentence to determine what makes it effective. On the following pages are several paragraphs for you to evaluate on your own, along with the Writing Center's explanation.

2. Internship at Lockheed Martin

From: May-20 To Nov-20

Scientists' research has revealed that viruses are by far the most abundant life forms on Earth. There are a million times more viruses on the planet than stars in the universe. Viruses also harbor the majority of genetic diversity on Earth.

ACHIEVEMENTS

- Was a part of State level football team
- Won many national and international level olympiads
- having a soft corner towards art
