## EDUCATION

Name Of Institution	Period	CGPA/10	Percentage	Course Work
<b>Veermata Jijabai Technological Institute(VJTI)</b>	<b>From: 2019 To 2023</b>	10	-	Thermodynamics, Fluid Mechanics, Coding, Mechatronics, Entrepreneurship
<b>South Indian Education Society(SIES)</b>	<b>From 2017 To 2019</b>	-	91%	Studied For JEE Mains and Advanced and various other competitive exams

## PROFESSIONAL ASSOCIATIONS

- Member of Entrepreneurship-cell VJTI
  - Event coordinator for national level business planning competition

## OBJECTIVE

The decision about what to put into your paragraphs begins with the germination of a seed of ideas; this “germination process” is better known as brainstorming. There are many techniques for brainstorming; whichever one you choose, this stage of paragraph development cannot be skipped. Building paragraphs can be like building a skyscraper: there must be a well-planned foundation that supports what you are building. Any cracks, inconsistencies, or other corruptions of the foundation can cause your whole paper to crumble.

## SKILLS

- AutoCAD, Solidworks, AutoCAD Mechanical, Autodesk Inventor, Excel, C++, HTML.

## HOBBIES

- Reading Different kinds of books, Programming, listening to classical Indian music

## PROJECTS

- Resume Builder** **From: May-20 To July-20**

Piranhas rarely feed on large animals; they eat smaller fish and aquatic plants. When confronted with humans, piranhas’ first instinct is to flee, not attack. Their fear of humans makes sense. Far more piranhas are eaten by people than people are eaten by piranhas. If the fish are well-fed, they won’t bite humans.
- Fan Controlled using Bluetooth** **From: Dec-19 To Mar-20**

Although most people consider piranhas to be quite dangerous, they are, for the most part, entirely harmless. Piranhas rarely feed on large animals; they eat smaller fish and aquatic plants. When confronted with humans, piranhas’ first instinct is to flee, not attack. Their fear of humans makes sense. Far more piranhas are eaten by people than people are eaten by piranhas. If the fish are well-fed, they won’t bite humans.

## INTERNSHIP

- Internship at Google** **From: Mar-20 To May-20**

Developing writers can often benefit from examining an essay, a paragraph, or even a sentence to determine what makes it effective. On the following pages are several paragraphs for you to evaluate on your own, along with the Writing Center’s explanation.
- Internship at Lockheed Martin** **From: May-20 To Nov-20**

Scientists’ research has revealed that viruses are by far the most abundant life forms on Earth. There are a million times more viruses on the planet than stars in the universe. Viruses also harbor the majority of genetic diversity on Earth. Scientists are finding evidence of viruses as a planetary force, influencing the global climate and geochemical cycles. They have also profoundly shaped the evolution of their hosts. The human genome, for example, contains 100,000 segments of virus DNA.

## ACHIEVEMENTS

- Was a part of State level football team
- Won many national and international level olympiads
- having a soft corner towards art
